

An aerial photograph of a construction site. On the left, a yellow and blue excavator is positioned near a large pile of dirt. In the center, a red truck is parked next to a yellow crane. To the right, there are stacks of construction materials and a yellow forklift. The background shows a large area of earth being worked on, with various construction equipment and materials scattered across the site.

# One Stop Pro<sup>®</sup>

Construction software Made in Germany

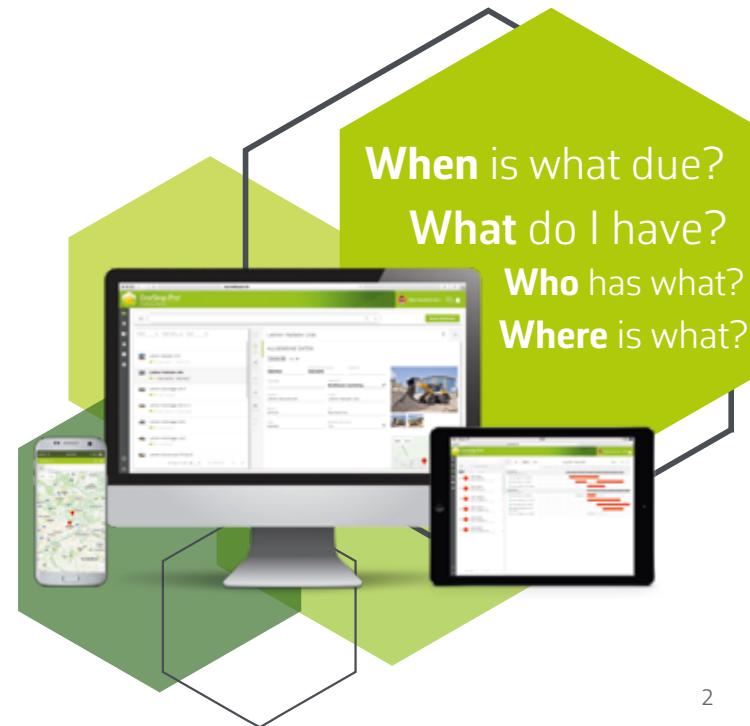

---

## OneStop Pro®

OneStop Pro is multiple award-winning construction software for the brand- and manufacturer-independent management, deployment and evaluation of all machines, tools, vehicles, people and other equipment.

Keep the big picture in mind: With OneStop Pro®

## The four OneStop Pro® products

**Go!**  
The entry-level product

**Telematics**  
Locations & live information

**Business**  
More functions – greater benefits

**All-Inclusive**  
Simply includes everything!

## One piece of software. A multi-faceted and versatile tool.

### Go!

The entry-level product Go! comprises basic functions such as an overview independent of brands and manufacturers for all machines, devices and vehicles. It also enables you to manage maintenance appointments and inspections digitally.

### Telematics

Telematics provides a standard overview of locations, live information and movements of all machines and devices. Existing and new telematics and manufacturer information can be displayed at the touch of a button.

### Business

With the Business product, OneStop Pro customers are able digitally to deploy and schedule resources, monitor costs and carry out evaluations.

### All-Inclusive

All-Inclusive does what it says on the tin: combining the functions of all the OneStop Pro products in a single application.

### The entry-level product

Go!

- Administration
- Display of equipment items
- Management of equipment items
- Maintenance and inspection management
- Services

### Locations & live information

- Administration
- Display of equipment items
- Reporting
- Security
- Telematics
- Management of equipment items
- Notifications
- Services

### More functions – greater benefits

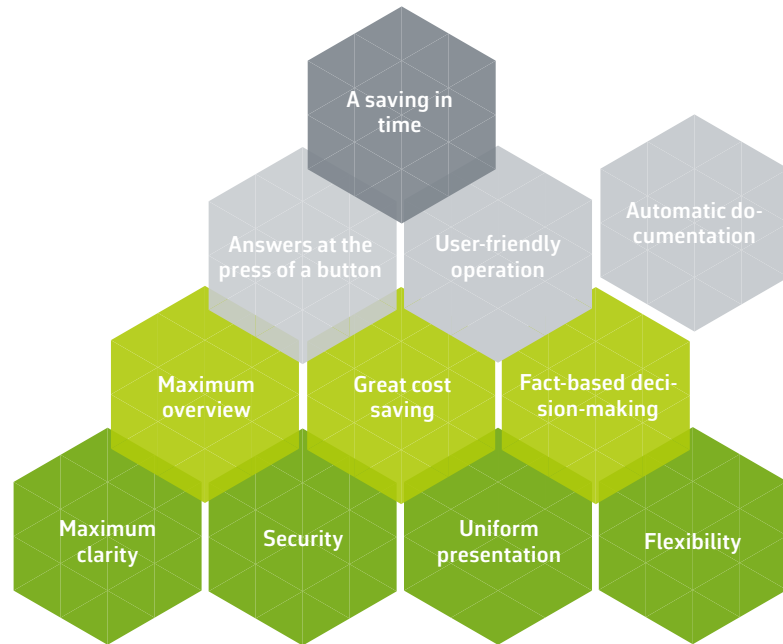

- Administration
- Display of equipment items
- Deployment of equipment items
- Deployment of bulk items

## What do I get from OneStop Pro®?

→ Since 1 January 2021, OneStop Pro has carried the SMIG seal.

## The introduction of OneStop Pro®: Well supported right from Day One

## Customer voices

### **BUG Verkehrsbau SE**

I have worked with many different management systems. For me, OneStop Pro is really refreshing, contemporary, clear and self-explanatory. That's what makes it interesting to us.

**Danilo Rechenberger**  
Warehouse logistics manager

### **Unternehmensgruppe Lehen**

Thanks to OneStop Pro, we shall in future be able to make better use of our telematics data. We are able to bundle the operating hours of machines and devices automatically in one system.

**Christoph Lehnen**  
Chief Executive Officer

### **Gaissmaier GartenLandschaft**

For me, OneStop Pro is an innovative solution that is constantly being further developed to meet customers' requirements. Service and support are just as important as the functions of a software package. OneStop Pro is absolutely the right product for me.

**Maximilian Gaissmaier**  
Site and workshop manager

### **Josef Rädlinger Unternehmensgruppe**

Less telephone calls or time-consuming preparation and more flexibility – that's what we owe to OneStop Pro. With OneStop Pro we have all the essential information at our fingertips.

**Thomas Dengler**  
Team Leader Corporate  
Development

## Customer voices

### VKLT West GmbH

It's a huge advantage that OneStop Pro gives you digital access to all the different elements of a construction project. Not just when you are in the office, but on-site as well.

**Ralf Nötzel**  
Operations manager

### AS-Bau Hof

I spent a long time looking for a tool management software solution that would allow me to manage everything from small tools to large machines in a single package.

**Dr.-Ing. Thomas Dick**  
Chief Executive Officer

## Still uncertain about which OneStop Pro® product is the right one for you?

→ **Digital  
product advisor**

## A superlative software solution

The added value for the customer is that it simplifies daily workflows and enables tasks to be completed more quickly.

The user works with a single system (OneStop Pro) and thus gains the benefit of full transparency and a complete overview.

## We are delighted always to be here for you, digitally and in person.
